

The Ohio Division of Burton Carol met in the beautiful party room at Royalton Greens on a sunny May 7 day to recharge their batteries after an extremely cold and long winter. Joy Anzalone led the meeting which was focused on how having a positive attitude can make it a great day. Everyone was given a bag of fishy crackers and a package of Swedish fish which only made sense because the event's invitation had fish on it and said "we may as well be fishing". The fishing theme made sense when the short film *The Fish Philosophy* was shown. This incredible motivational film which features The Pike Place Fish Market in Seattle, Washington and is designed to make individuals alert and active in the workplace. The four central ideas of Fish are:

1. Choose one's attitude;
2. Play at work;
3. Make someone's day; and
4. Be present.

Everyone enjoyed the film and it led to a great discussion on how these techniques are so important in our daily work. Everyone was treated to a wonderful lunch from the Sauced Wood Fired Pizza truck and a beautiful Burton Carol blue and green cake.

Finally, each property brought home a new resident....that would be a Beta Fish to keep in the rental office to remind everyone every day of the Fish Philosophy.
